a well being centre

every body needs a bit of peace & quiet

The Centre of Well-being

“ Start with the inside. It's amazing how the body and mind really shine when you work from within. ”

Naturopathy

Naturopathy works within an age old philosophy which embraces the holistic concept that by treating the whole person and providing the right opportunity you can achieve optimal health. In addressing the underlying causes of illness and working from the premise that the body has an innate ability to heal itself, you can take control of your health.

Naturopaths at Peace & Quiet will assist you to achieve and maintain good health by offering not only diet and lifestyle advice, but also a range of complementary therapies such as herbal medicine, vitamin and mineral therapy, homeopathy and flower essences.

We welcome the opportunity to share your healing journey with you.
